Capital Projects

Public Works Capital Projects

Madison Station Blvd Project

One concrete pour for a pedestrian crosswalks near the roundabout was completed. Stansell installed several conduit and drilled light pole foundations. Rain has delayed earth work and the remaining concrete pours for the crosswalks this week.

North Nashville - Capital Bikeways Project

Work accomplished 8/14/14 – 8/20/21:

- Vulcan completed sign installation and delineators on 28th Ave N.

Two-Week look ahead as weather allows:

- PRI to begin MMA installation on 28th Ave N as weather allows as high temperatures and high humidity cause curing issues.
- We do not have a schedule for Special Operations to begin milling on Monroe St at this time.

Sidewalk Café/Outdoor Dining Permit

Reminder: Metro Codes, in coordination with other Metro departments, is facilitating the sidewalk cafe/outdoor dining permit. Businesses all around Nashville can apply for this permit to expand their outdoor dining space. Information about the permit, and how to begin the application can be found on NDOT's permits page: <https://www.nashville.gov/departments/transportation/permits>.

Neighborhood Clean-Ups

Help Keep Nashville Beautiful by organizing a clean-up or planting project in your neighborhood. Learn about how to [organize a cleanup](#) or where you can borrow tools free of charge from [Nashville's Tool Share](#) program!

Clean-ups scheduled for this weekend:

- DHNA- Area around Fairway Drive & Lebanon Pike Intersection
- Beautification Commissioner- Intersection of Timber Valley Drive & Elm Hill Pike

Adopt-A-Street Program

Metro Beautification's Adopt-a-Street program is a great and inexpensive way that churches, businesses, neighborhood groups or individuals can help to keep Nashville beautiful. To learn more about the program or to Adopt-A-Street visit our website, AdoptAStreet.Nashville.gov.

Projects Underway the Week of 8/23/2021 – 8/27/2021

KEY	
Casting Adjustments	Adjustment (lowering) of utilities to allow milling machines to traverse the roadway without damaging utility assets. Re-adjustment (raising) of utilities so that they will again be flush with the new surface that will be applied.
Milling/Undercutting	Removal (milling) of old surface using a milling machine. All milled surfaces must be cleaned by the milling contractor and marked appropriately to safely direct traffic. During undercutting the old surface that has failed is cut out and new material is put back in before it is resurfaced.
Infrared	A technique where infrared heating systems apply heat to pavement surfaces and aid in the removal of existing material and replacement with new asphalt mixture.
Signal Loop Wires	Signal Loop Wires are installed under the pavement. They are used to detect vehicles passing or arriving at a traffic light.
Crack Seal	A sealant put into the construction joint to keep water out so the road will not depreciate.
Fog Seal	A sealing put on the road to give the road an extended period before it gets paved.

	Wedgewood Avenue Extension	TDOT	\$10,057,735	5,000,000		Comprehensive improvements to Wedgewood Avenue as well as spot improvements at area intersections will be needed to facilitate multi-modal access to the site. Given the unique considerations of bridge construction, we are specifically requesting TDOT's funding participation for a bridge over Brown's Creek and the associated extension of Wedgewood Avenue through the site. This short roadway extension and bridge will result in the important connection between SR 6 (8th Avenue South), the 1-65 interchange, the fairgrounds site, and SR 11 (Nolensville Road). \$5 M TDOT, 110 M total	Awarded
2016 CMAQ	TDM Phase 1	FHWA TDOT	\$1,497,800	\$1,204,240	\$293,560	A program to reduce congestion and contribute to the exceedance of air quality standards by supporting and promoting the use of transportation options other than single occupancy vehicles	Awarded
2019 CMAQ	TDM Phase 2	FHWA TDOT	\$1,769,494	\$1,415,595	\$353,899	Funding to maintain our established transportation demand management program and coordinate efforts in the region, using proven TDM strategies to reduce congestion with a goal of improving air quality.	Awarded
2019 CMAQ	West End Avenue/ Broadway Communication Upgrade	FHWA TDOT	\$3,053,780	\$2,953,100	\$100,680	This project consists of approximately 29 existing traffic signals which are operating as either isolated signals or on wireless / copper communications. Additionally, the primary means of detection on the side-streets are through loops. It is proposed to improve the vehicle detection to radar detection for more reliability. This CMAQ project will build on the current I-440 rebuild to more efficiently and effectively manage vehicle operations. After the installation of the communication and detection, a corridor retiming and optimization of the traffic signals will be conducted.	Awarded

HIGHLIGHTS THIS WEEK

Featured Project of the Week—25th Avenue South Sidewalk Improvements

Program: Sidewalks

Project Type(s): Sidewalk repair & extension

Project Duration: February 10 (re-evaluation) – June 21 (construction complete), 2021. 131 days.

Project Impact: 4,100' new sidewalk, completion #1 of 50 backlogged sidewalks

Metro Project Manager: Jeff Hammond, P.E.

Engineer: LDA Engineering

Contractor: Roy T. Goodwin

Originally funded in fiscal year 2016-17, the 25th Ave sidewalk project was one of NDOT's 50 backlogged capital projects, but right-of-way discussions had stalled due to resident concerns over some of the design aspects. Meeting both virtually and on-site with residents, it was determined that a sidewalk had historically existed on the street, but much of it had been covered or otherwise disappeared over the years.
