

Performance Measure Review

In 2002, the Metro Nashville Government deployed a government-wide strategic planning and performance measurement initiative through the Office of Management and Budget in the Department of Finance. The planning and performance initiative continues today and provides the necessary tools and data to manage effectively and improve performance.

Department strategic business plans and performance data are assessed, tracked, and reported to citizens, employees, and Metro's leadership to support more informed decisions at all levels of an organization.

In order to ensure that the reported performance data is accurate, the Office of Financial Accountability (OFA), part of the Department of Finance, conducts annual performance measure reviews of a selected sample of each department's performance measures. Specifically, the OFA samples and tests a minimum of the program measures associated with at least ten percent of departmental budgets. The Hospital Authority and Metropolitan Nashville Public Schools have separate strategic planning processes and are not included. After the review is complete, departments are briefed on the outcomes through an exit interview process that provides departments an opportunity to respond to and discuss the findings. Reports on the validity of the departments' reported results are shown below. For the purpose of these reviews, the term verified means that the OFA has conducted tests to affirm, or assure positively, the accuracy and correctness of the reported performance measure result.

The performance data reported in this document serve to inform the budget process by linking the performance of each department to the department's annual program budget. In essence, it demonstrates, at least in part, how well the department performed within the budget approved by the Metro Council. The results of the performance measure review are an important part of the budget process that assures decisions-makers and citizens that the data upon which budgetary decisions are made is accurate.

For questions regarding the reported data, please contact the department directly. Department contact information can be found at www.nashville.gov. Additionally, more information regarding performance measurement activity within the Metropolitan Government can be found at the Citizens' Guide to Metro's Performance located at www.nashville.gov/performance.
