METROPOLITAN NASHVILLE AND DAVIDSON COUNTY SOLID WASTE PLANNING REGION

ANNUAL PROGRESS REPORT

January 1 through December 31, 2002

Prepared by the Metro Department of Public Works,
Division of Waste Management

May 6, 2003

Muncipal Solid Waste Planning Region

ANNUAL PROGRESS REPORT

January 1, through December 31, 2002

This annual progress report covers the Region's solid waste activities from January 1, 2002 through December 31, 2002 and is due (original and one copy) in the Division of Community Assistance (DCA) office **on or before March 31, 2003**.

The progress report is considered to be an opportunity to reflect on successful implementation of the Region's ten-year plan (or five-year revision to plan). It is understood that the strategies originally planned for attaining the Region's goals may have changed because of unforeseen circumstances. Changes should be reflected in this report.

Should the Region have difficulty collecting information necessary to prepare this report, the statute allows the Region to compel those actively engaged in the collection, transportation, and/or disposal of solid waste to provide the necessary information [T.C.A. §68-211-871(c) and (d)].

Contact DCA for additional information or assistance at (615) 532-0445.

SECTION II. MUNICIPAL SOLID WASTE REGIONAL PLANNING BOARD MEMBERS

T.C.A. 68-211-813 (b) states that each Region must have a board that shall consist of ***an odd number of members, not less than five nor more than fifteen****. Each county that is a member of the Region must be represented by at least one member. Municipalities that provide solid waste services either directly or by contract shall be represented on the board. Municipalities entitled to representation may agree to be represented jointly by a board member.*

The ***members of the board shall serve for terms of six (6) years*** *or until their successors are elected and are qualified by taking an oath of office, except that* ***the initial board*** *shall have approximately one-third (1/3) of the members with terms of two (2) years, and approximately one-third (1/3) of the members with terms of four (4) years, so as to stagger the terms of office.*

Appointments made after July 1, 1994, to the board for a municipal solid waste region consisting of counties having a population less than two hundred thousand (200,000) according to the 1990 federal census or any subsequent federal census shall be made so that rural landowners shall have representation on the board, and by December 31, 1998, at least thirty percent (30%) of the membership shall consist of members who own at least a fifty percent (50%) equitable or fee simple interest in land that is eligible for classification as agricultural, forest or open space land under the terms of the Agricultural, Forest and Open Space Land Act of 1976, as amended.

CHAPTER 5 WASTE REDUCTION (PROGRESS TOWARD THE 25% WASTE REDUCTION GOAL)

The Solid Waste Management Act of 1991 as amended through 1999 requires each Region to reduce by 25% (measured on a tons per capita basis) all waste generated in the Region and disposed of in Class I landfills or incinerators located in or out of the Region by December 31, 2003.

B. Assessing Reduction Strategy

As proposed in the Region's 10-year Solid Waste Management Plan, waste reduction strategies will be followed to achieve a 25% waste reduction goal. In working toward that goal, it may have been necessary to revise those strategies.

C. DESCRIPTION OF WASTE REDUCTION STRATEGIES

County: Davidson

☑ **ClassIII/IV Landfill in County**

☑ **Mulching Diversion**

The Division of Waste Management operates a coposting/mulch site which processes (by grinding and screening) and ages a mixture of brush waste and other untreated wood products

☑ **Recycling Diversion**

Metro provides a newtwork of recycling drop-off sites throught Davidson County. In addition, all residents within the Urban Service District of Metropolitian Nashville receive curbside recycling services.

☐ **Composting Diversion**

☐ **Source Reduction**

☐ **Other Diversion**

☑ **3. Were there changes in the Waste Reduction Strategies?**

Changes in 2002 include the beginning of a curbside recycling program for all 100,000 single family homes in Nashville.

CHAPTER 6. WASTE COLLECTION AND TRANSPORTATION

As of January 1, 1996, each county in the Region was required to assure adequate collection [T.C.A. § 68-211-851] to meet the needs of its citizens. Per the statute, green boxes (unattended dumpsters) may not be used to assure minimum collection efforts.

According to Tennessee Regulations 1200-1-7-.10, the minimum level of solid waste collection services for a county shall be assured through the use of convenience centers or a higher level of service (household collection).

nbrRegion: 19

B. Determining the Number of Convenience Centers

To determine the number of convenience centers that would be required for a county to operate under Tennessee Regulations 1200-1-7-.10, the service area of a county must first be calculated. The service area can be calculated using square miles or population. Area Method for determining the service area can be found in Appendix D or Page 7 in the Annual Progress Report Guidelines.

Method Used
- ☐ Population
- ☑ Area

C. Indicate the total number of convenience centers required by either the population or square miles method for each county in the Region in the table

COUNTY: 19 Number of CCCs REQUIRED 2 Number of CCCs listed

D.

☐ CCC NUMBER Required Is LARGER THAN the Number of Listed CCC.

If YES for any county in the Region, how is collection assurance provided?

☑ Higher Level of Service (Alternative System)?

☐ Are you adding additional CCCS

Note: This does not include municipal corporations operating mandatory collection services.

E. Higher Level of Service - Alternative Systems
Chapter 1200-1-7-.10(2)(c) states that "If a county or region proposes an alternative system said system shall be approved by the Commissioner. The proposed system must provide a higher level of service than convenience centers. The county must, at a minimum, provide a review and state in detail the criteria by which the system provides a higher level of service."

CHAPTER 9 PUBLIC INFORMATION AND EDUCATION

TCA § 68-211-842 requires each solid waste regional plan to include an education program to assist adults and children to understand solid waste issues, management options and costs, and the value of waste reduction and recycling.

A. Education Program/Activity in the Region

ProgramName: **Davidson** nbrRegion 19

Program Description: "Curby" Curbside recycling education and outreach

Target group: General Public

Participation#: 540000

Provider: Nashville

CHAPTER 10 PROBLEM WASTES

January 1, 1995, each county in the Region was required to provide at least one site (if adequate sites were not otherwise available in the county) to receive problem wastes. Note: Participation in the Household Hazardous Waste Mobile Collection Program does not qualify as providing a permanent collection site.

Region's plans to comply with the above mandate from the Solid Waste Management Act of 1991 [T.C.A. § 68-211-866(b)] and identify any changes in strategy

CHAPTER 12 ALLOCATION

Region 19

Jurisdiction Name: Metro

A. 2002 Implementation:

B. Future Implementation:

In 2002 Metro egan the implimentation of a citywide curbside collection program. In addition, thermal closed and all MSW is now being sent to the BFI landfill.

C. Did County form Part 9 Solid Waste Authority? (check yes) ☐

1) If yes list
Jurisdiction

2) If Yes Part 9
Mission

3) Provide a copy of the Charter supplied to the Secretary of State in formation of the Part 9 Authority.

4) Provide a copy of the Resolution forming the Part 9 Authority.

CHAPTER 13 FLOW CONTROL

TCA 68-211-814(b) (1) (A) states that if the commissioner approves the plan, the region or solid waste authority, if one has been formed pursuant to part 9 of this chapter, by resolution and subsequent adoption of ordinances by counties and municipalities in the region, may also regulate the flow of collected municipal solid waste generated within the region. Prior to the adoption of any resolution declaring the necessity of requiring mandatory flow of municipal solid waste, the region or authority, following one (1) or more public hearings, shall demonstrate in writing to the commissioner that it has considered the utilization of any municipal solid waste management facility in existence within the region on July 1, 1991, which meets the proposed or final federal Resource Conservation and Recovery Act (RCRA) Subtitle D regulations. The region or authority must show that its decision not to use the existing facility is based on the fact that:
(i) Such facility is environmentally unsound or inadequate to meet the region's ten-year capacity assurance plan;
(ii) (a) Costs for the use of such facility are inconsistent with comparable facilities within the state; or
(b) The existing facility is operating in a manner that is inconsistent with the plan; and
(iii) The waste subject to flow control will be sent only to a facility or facilities that meet all state and federal regulations.
(B) The region or authority may restrict access to any landfills and incinerators which dispose of municipal solid waste by excluding waste originating with persons or entities outside the region in order to effectuate the plan. If a facility within a region has accepted waste from a specific source outside the region prior to July 1, 1991, the region may not prohibit that facility from continuing to accept waste from that source, unless the facility's acceptance of that waste significantly impairs the region's ability to effectuate its plan.

nbrregion 19 **SW Region Name:** Davidson

A. FlowControlAttempt (Yes) ☐

If Yes, provide details as outlined above including approval from the commissioner:

To the best of my knowledge, all statements and figures included in this Solid Waste Management Annual Progress Report are accurate and correct as of the date of submission of this report.
