**Subject:** Item #27 Contribution in Lieu of Sidewalks, pilot  
**Date:** Thursday, May 28, 2020 12:00:13 PM

---

As the lead sponsor of the sidewalk legislation last term, I support this legislation and appreciate Councilwoman Roberts efforts & desire, which I share, to make sure that Metro Government is delivering more smaller but highly impactful projects more quickly for the benefit of more people walking. I think it is worthwhile to see within a set time frame, as proposed, if organizing with council districts will deliver the sidewalk gaps projects, safer crossings, and traffic calming that this city needs. I know that Planning & Public Works will work together to apply an objective and transparent process of project selection. I will watch this closely and work to make it successful in my role as chair of the Public Works Comt of the Council. I am optimistic and encourage your support.

Angie Emery Henderson  
Councilwoman, District 34  
Chair, Public Works Committee  
Metropolitan Council of Nashville
