**Cc:** Planning Staff  
**Subject:** Items I'm Supporting Tonight

Commissioners,

I apologize for my tardy correspondence, but I did want to highlight some items I am asking you all to support on this evening's agenda:

- 2020SP-030-001: I have worked extensively with the Lofts at Marathon team through various iterations of this project and expect it to bring quality housing to an appropriately urban area.
- 2016SP-055-002: Again, I've worked with New City and Historic Germantown neighbors extensively on Neuhoff and properties nearby to the Cumberland River Greenway. I believe this project would further enhance an emerging district in East Germantown.

Thank you all for your consideration and your service.

My best ...
