**6. Ongoing business**

Our current grant will end next June. We are already starting work on new grant ideas and will be asking for letters of support from the board members. The RFP usually comes out at the end of March.

All Community Corrections programs across the state are trying to reach out to our legislators in order to let them know about our program and what we do. We are asking them to consider approving a raise for us on their next agenda.

Chris Young and I met with the Davidson County delegation on February 14, 2019 to talk with them about our program.

**7. Closing:**

- Questions/comments from the Advisory Board.
