

CAB Committee Agenda

(The Consumer Advisory Board of the CoC)

East Park Community Center. 600 Woodland St. Nashville TN

Thursday, October 12th

10am-11:30am

. Requested to Attend the Conference next month <https://www.nhsdc.org/> to be trained on Data usage toward homelessness solutions.

A. Why? There are many tenants reaching out to us with situations that are crisis, we need to be in the HMIS system to capture these families & also connect them to retention services & or post eviction emergency services.

2. Training on LEAB's is already being lined up this does not negate the NAEH lived experience guidance. We are ever learners so all the training we can get we are open too!

*Will help address CAB governance properly across the board and the receipt in lieu of compensation in the amount of two 10.00 Dollar General gift cards from the Anti Racism Conference the following day after the CAB meeting, a decision made for tenants without consulting what was best for them. (09/14/2023 the CAB notes stated we were compensated but we were not compensated properly at all)

* Do Governance documents already exist as proper guidance on this , if NOT refer to we need this training to create that with our fellow CAB members this will suffice for the requested Technical Assistance.

3. Our Chance TN will be joining us for solutions via the CAB Lived Experience to do exactly what was mentioned above they are a MDHA partner as well.
