March Report Highlights

The Housing First Supportive Services providers are providing a high number of high-level services to their permanent supportive housing clients. Together, Mending Hearts and Step Up On Second have provided 2,795 services to their clients. 95.2% of Mending Hearts clients have at least 1 disabling condition and 77.4% have 2 or more disabling conditions.

We continue to offer valuable training opportunities to the CoC, such as ACES Trauma informed care training, Housing Navigation Training, and De-Escalation Trauma Informed Training, as well as hosting a CoC Summer Kickoff with Special Speaker Kelly Young, the CEO of the Houston Coalition For the Homeless.

Monitoring of the funded agencies is in process with all in-person visits having been completed. Working through this process has allowed us to identify challenges faced by these providers and to turn them into opportunities for process improvement. The bimonthly meetings with the providers serves as an open channel for feedback and further refinement of systems. All of these collaborative efforts are producing better results in this vital component of the effort to end homelessness.

90% Retention Rate of 189 individuals have been assisted through the Encampment Surge. OHS is working with the Shelter Committee to update the Encampment Strategy utilizing the national best practices of the National Alliance To End Homelessness and USICH's 19 Strategies For Communities To Address Encampments Humanely and Effectively.

Challenge: Continued support for agencies to expand capacity to meet the developing needs of the community.
