& MULTIMODAL INFRASTRUCTURE*

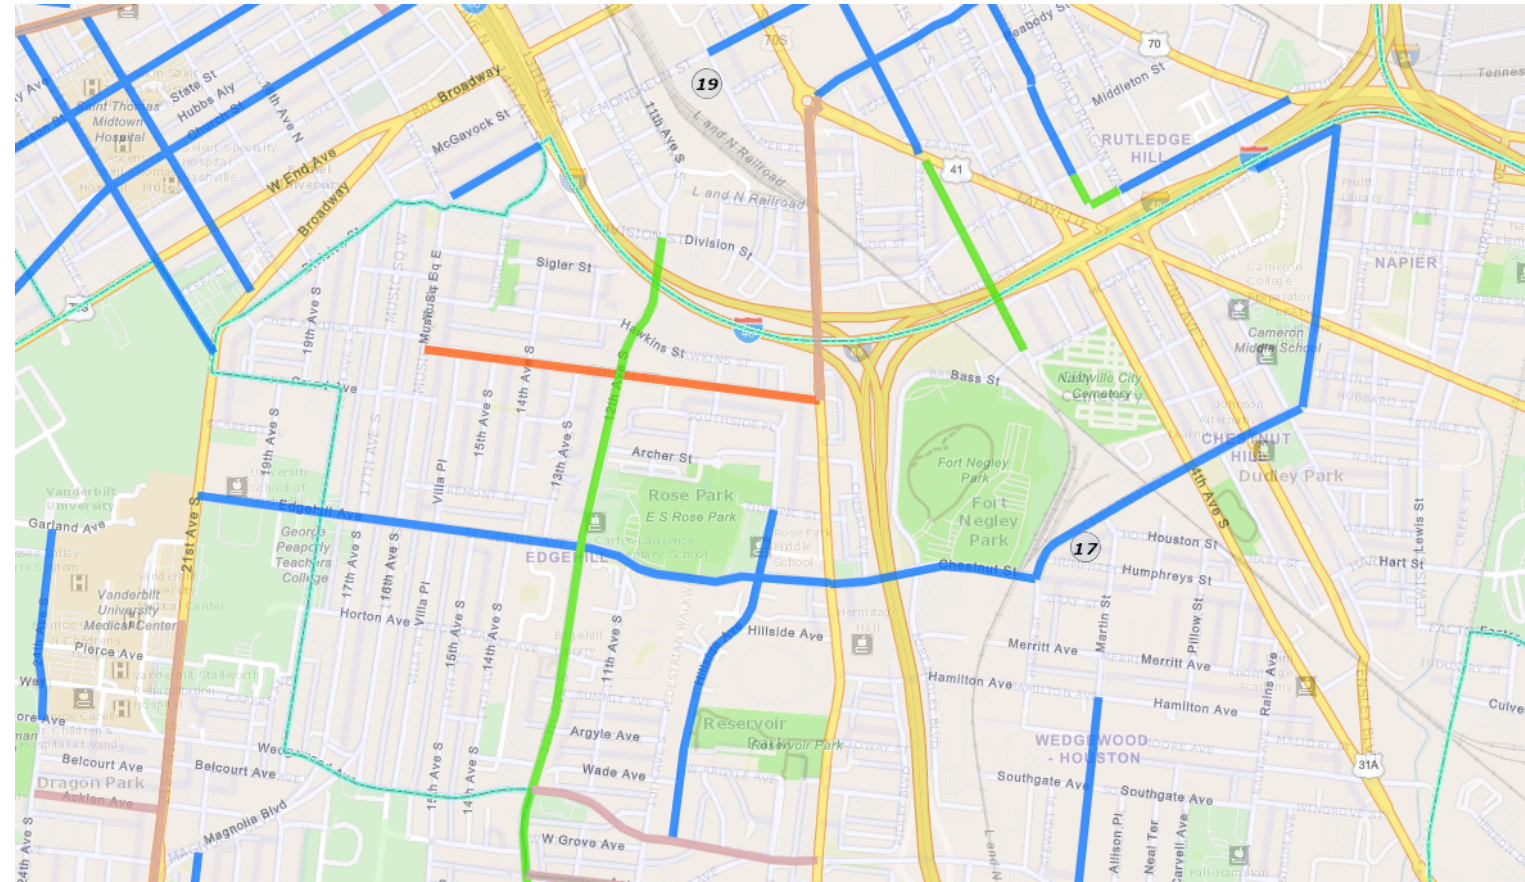

Chestnut/Edgehill Bikeway Project

Anna Dearman, AICP, NDOT Walking & Biking Manager

May 2024

Presentation overview

- Bikeways & multimodal planning background
- Chestnut/Edgehill corridor background
- Current concepts
- Next steps

Bikeways planning background: WalknBike

- Strategic plan for sidewalks & bikeways
- Existed for decades, updated 2022
- 2022 – 2024 work plan: NDOT priorities through 2024
- Other planned bikeways also implemented opportunistically

50/20

Deliver projects **50% faster, 20% less expensive**

Prioritize projects based on scoring for 4 factors:

SAFETY

CONNECTIVITY

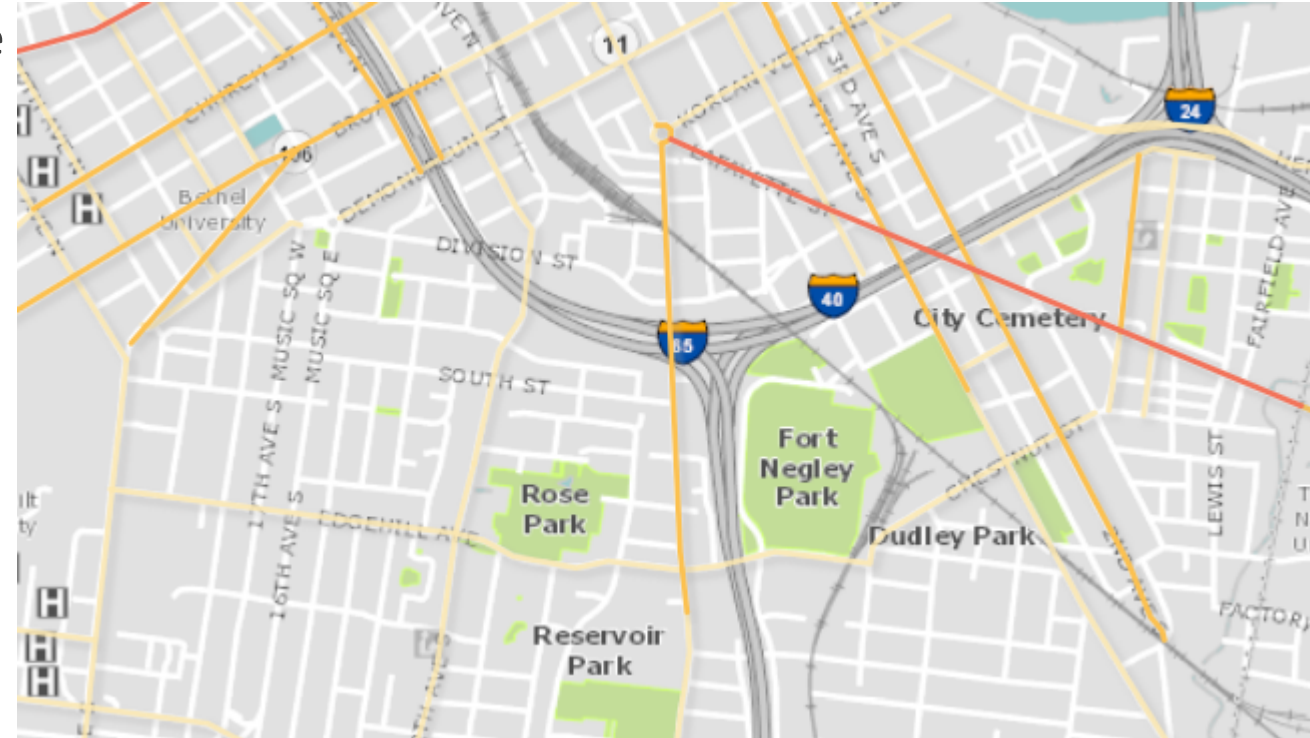

ACCESS TO TRANSIT

HEALTH & EQUITY

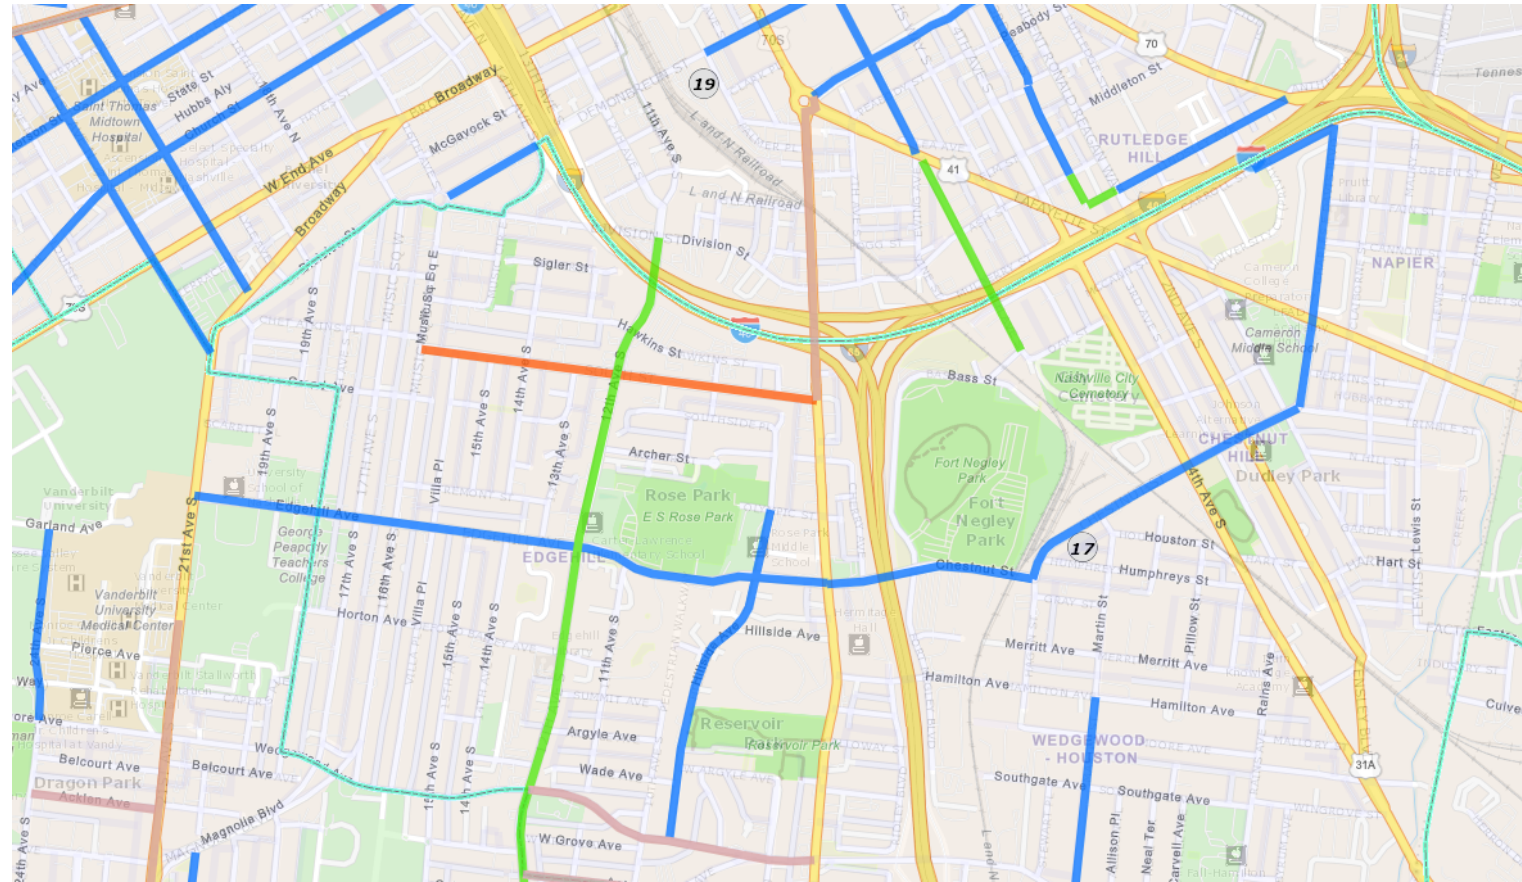

Chestnut/Edgehill corridor background

- Chestnut/Wharf between 8th Ave & Lafayette on 2022 – 2024 WalknBike work plan
- Edgehill between 21st & 8th aves on 2022 – 2024 WalknBike work plan
- Chestnut/Edgehill corridor on Vision Zero High Injury Network
- Chestnut/Edgehill on 3-year paving list

Chestnut/Edgehill corridor opportunities

- Major crosstown bikeway connection
- Connects Napier-Sudekum, Chestnut Hill, Wedgewood-Houston, Edgehill, and Midtown neighborhoods, Vanderbilt campus
- Connects to existing bikeway network on 12th, 16th & 17th aves
- Chestnut/Edgehill on 3-year paving list

Chestnut/Edgehill current status

- In planning phase
- Tracking for final preferred concept end of May
- Multiple engagement opportunities since 2022
- Several meetings during Bike Month
- Bike to Work Day Friday, May 17: northeast corner of Edgehill & 12th Ave

Chestnut/Edgehill current concepts

Chestnut/Edgehill current concepts: next steps

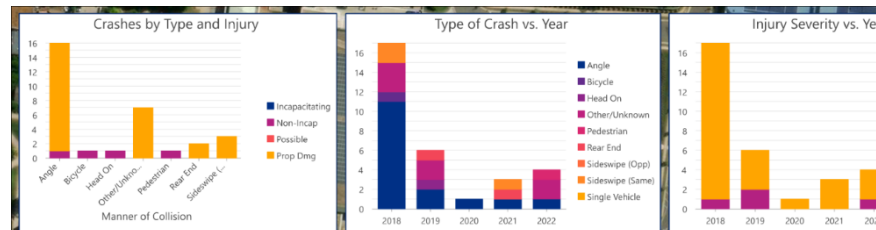

- Final design starting summer 2024
- Construction likely phased
- Engagement activities ongoing
- Evaluation, monitoring & modification as needed

Evaluating the Improvements

Improvements Summary & Results

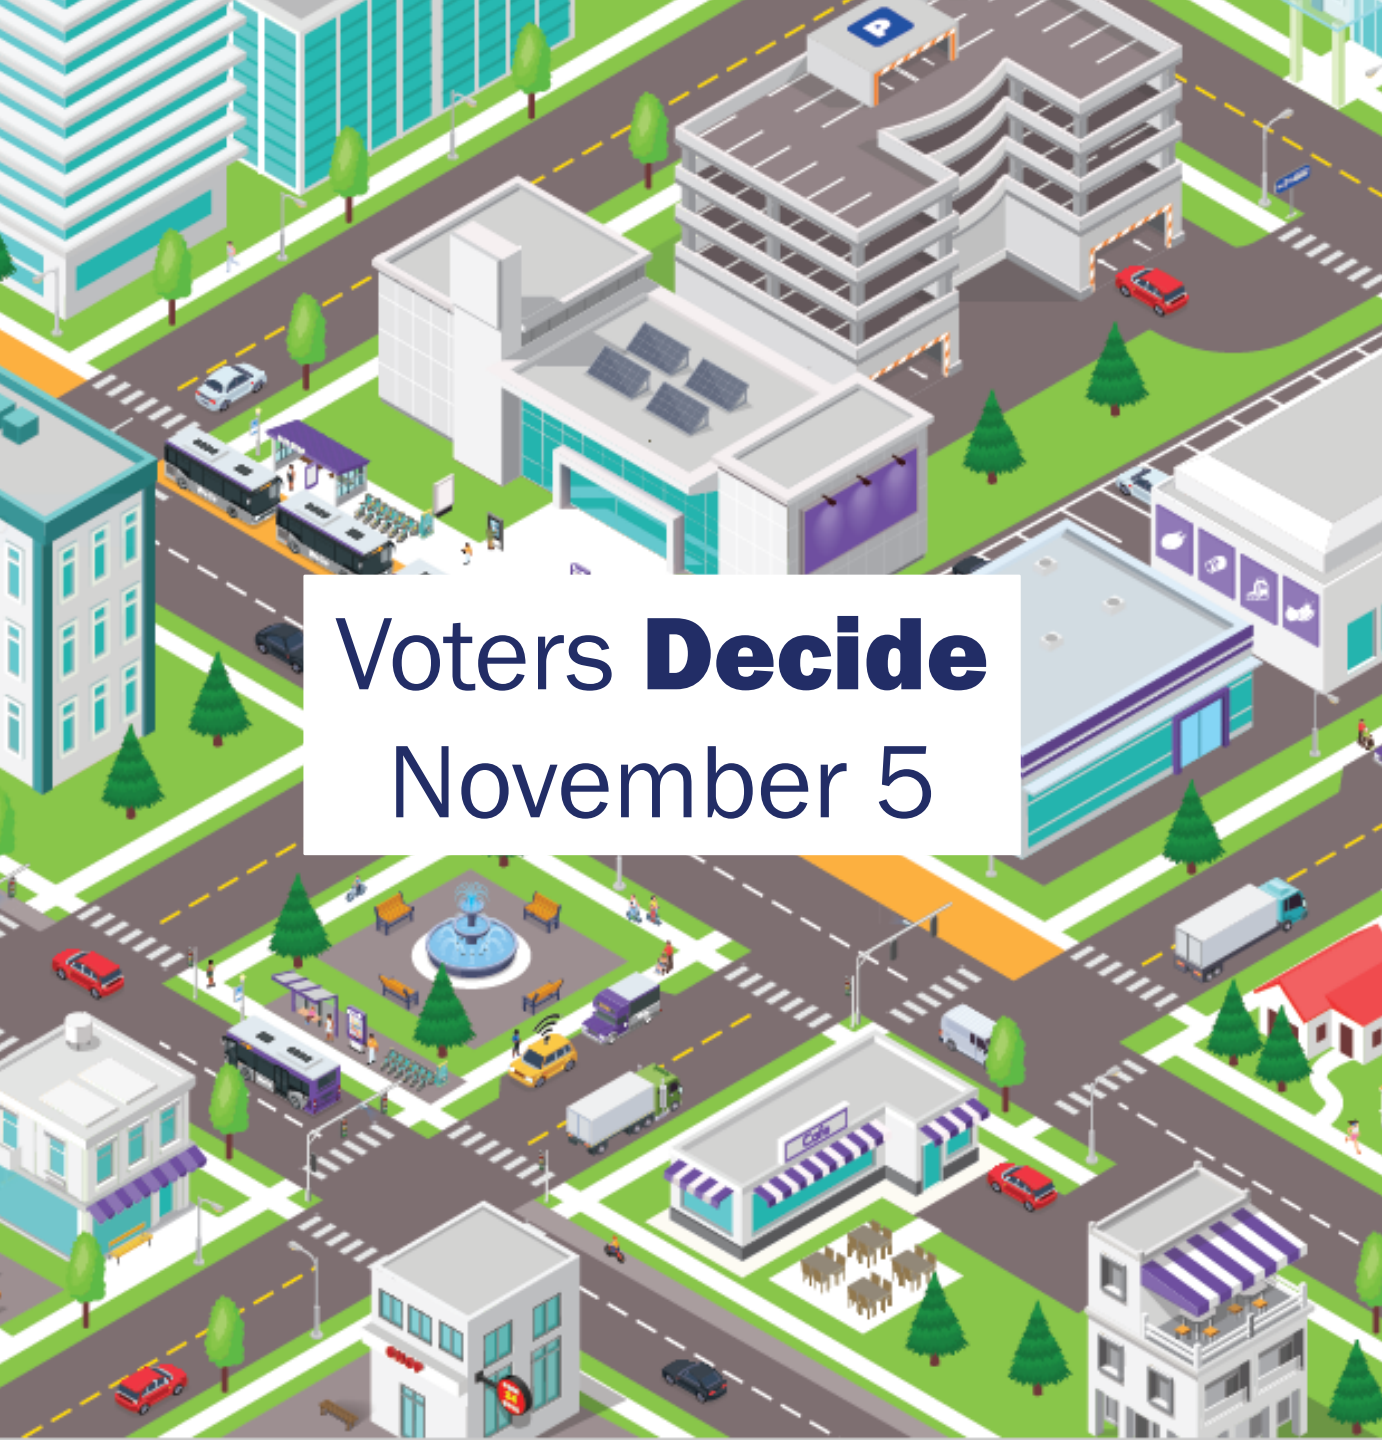

A before and after analysis was conducted to understand the traffic impacts, safety, ridership, street aesthetic, and community support of the bikeway.
