PARKING COUNTS

- Percent utilization is calculated by dividing the number of cars observed by the number of spaces available.
- When utilization is over 100%, cars may be parking too close to intersections or parked illegally other ways
- Counts were taken during five periods spaced over the course of the day.
- For both the weekend and weekday, the peak period was 11:00 AM - 1:00 PM
- On Saturday, April 20, Centennial Park hosted Nashville Earth Day, an occasion representative of large events.
