Notes:

1. This report is provided on a quarterly basis as a management tool to criminal justice leaders. The purpose of this report is to assist court managers and judges in monitoring the flow of cases through the court system. Successful case flow management can help avoid and reduce unnecessary delay as well as allow more efficient use of time and other resources. This report was developed using guidelines established by the National Center for State Courts. It provides statistics on the average time it takes cases to move from arrest to disposition of the case, for the current year compared to the same time period in the previous year. This analysis is also available by Criminal Court Division.
2. For this report, an outlier test procedure of two standard deviations from the mean is used to determine extreme values which could skew the statistics. Two standard deviations around the mean account for roughly 95 percent of the data population. Values that are determined to be outside two standard deviations are excluded from the statistical calculations. Therefore, the number of cases and defendants reported here is not intended to represent the total number of cases and defendants disposed during the time period.
3. Criminal Court cases are included in this report when all counts for a defendant are disposed. Each defendant is analyzed separately. Therefore, a Criminal Court case can be included in more than one time period if there are multiple defendants with their final count disposed in different quarters.
4. Concerning data on jury trials: This report provides data on the average length of time to dispose a case/defendant therefore it does not include when a jury mistrials and the case remains open. It is also unable to distinguish when a defendant enters a guilty plea after a jury has been impaneled for a trial. At this time the data in CJIS provides no way to accurately identify those cases that started, but did not end, as a jury trial, nor measure the time spent in a trial prior to the guilty plea. Therefore in this report trial cases are defined as cases disposed and recorded in CJIS with disposition by either jury trial or bench trial.
