Project Description: Interior renovation of selected floors.

Start Date: 7/22/2024 **End Date:** 3/24/2025 **Project Length:** 245 days

Describe Type of Closure: One lane closure to be able to have a dumpster to dispose of construction items daily, and a couple portable potties during the time of construction of approximate 245 days. with the following working hours : 6:00 am to 7:00pm

Provide Reasons why Project cannot be completed without closures and what other options were considered (attach documents as needed): Construction workers will not be allowed to use building restrooms, and that is the reason we need accessible portable potties. We will also need easy access to the dumpster for construction items we are disposing or. An alternate to this will be a daily haul off, but we are only allow to do that after 5:00 pm every day. Having a dumpster on site will allow us to be more efficient on our time for the project.
