

# Nashville's HUD System Performance Measures, 2023

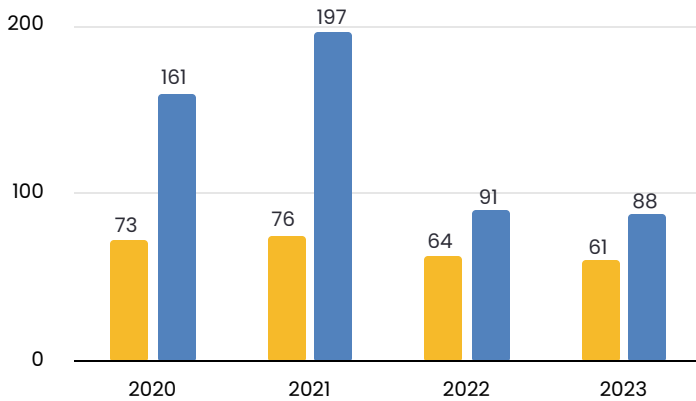

Nashville-Davidson County HMIS, Reporting Period: 10/1/2022-9/30/2023

## Measure 1: Average Length of Time Persons Remain Homeless.

This measures length of time from program enrollment to housing move-in for clients in emergency shelter, safe havens, transitional housing, and permanent housing (prior to housing move-in) in HMIS. *Our goal is to decrease the length of time people remain homeless.*

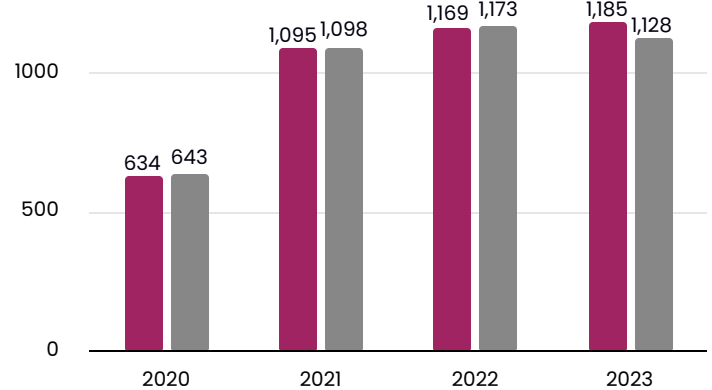

In 2023, the number of days spent homeless in emergency shelters, safe havens, and transitional housing decreased by 3 days. When time spent in permanent housing programs before move-in is included, the average decreased by 45 days.

**Average length of time experiencing sheltered homelessness, in days**

- Emergency Shelters and Safe Havens
- Emergency Shelters, Safe Havens, and Transitional Housing

**Average length of time homeless prior to housing move-in, in days**

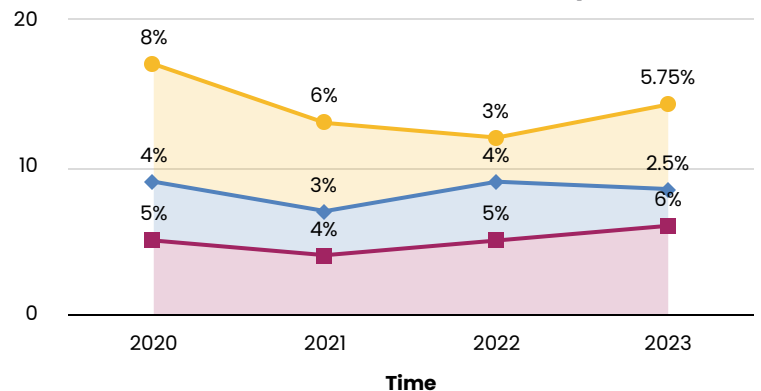

- Emergency Shelters, Safe Havens, and Permanent Housing
- Emergency Shelters, Safe Havens, Transitional Housing, and Permanent Housing

## Measure 2: The Extent to which Persons who Exit Homelessness to Permanent Housing Destinations Return to Homelessness

This looks at people who exited homelessness to permanent housing 2 years ago (October 2020 through September 2021). Of those clients, it measures how many have returned to homelessness. It includes exits from street outreach, emergency shelters, transitional housing, and permanent housing programs. *Our goal is to reduce the percentage of people who return to homelessness.*

In 2023, 14.25% of people housed from October 2020 through September 2021 returned to homelessness within 2 years. The percentage of people who returned to homelessness increased by 2.25%.

**Returns to homelessness within 2 years**

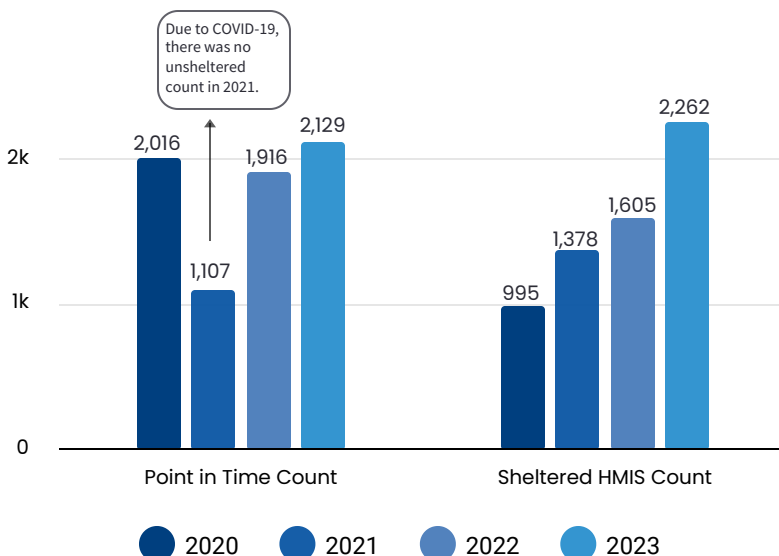

- < 6 months
- 6-12 months
- 13-24 months

## Measure 3: Number of Homeless Persons

This includes the number of people experiencing homelessness (sheltered and unsheltered) on the night of the Point in Time Count, and the number of people served by emergency shelters, transitional housing, and safe havens annually in HMIS. *Our goal is to reduce the number of people experiencing homelessness.*

In 2023, the Point in Time Count increased by 213 people and the sheltered HMIS count increased by 657 people.

Nashville-Davidson County HMIS, Reporting Period: 10/1/2022-9/30/2023

## Measure 4: Employment and Income Growth for Homeless Persons in CoC Program-funded Projects

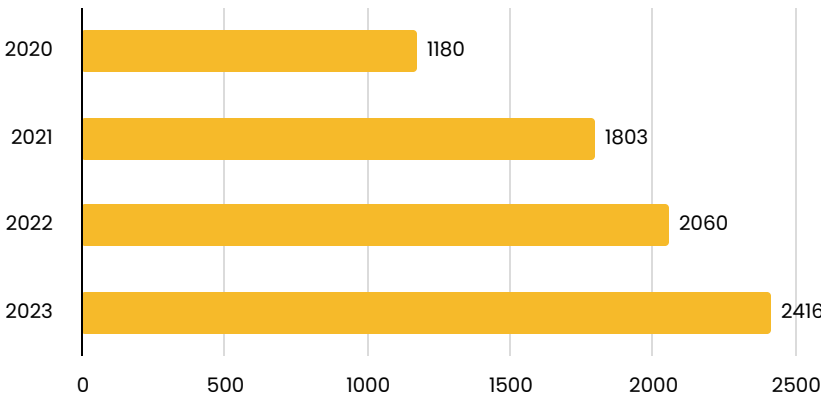

This measures the percent of adults in CoC-funded programs who have higher income at exit or latest status than they did at program entry. This includes employment income and other sources of income. *Our goal is to grow the percent of adults who gain or increase their employment or non-employment income.*

In 2023, the percentage of CoC program stayers (people still in the program at the end of the reporting period) who increased their income remained the same. The percentage of CoC program leavers (people who exited the program during the reporting period) who increased their income decreased by 9%.

## Adults in CoC-funded projects who increased income

## People experiencing first time homelessness

## Measure 5: Number of Persons who Become Homeless for the First Time

This counts people who entered emergency shelter, safe haven, transitional housing, rapid re-housing, and permanent housing programs during the year who did not have any program entries during the previous 2 years. *Our goal is to reduce the number of people experiencing homelessness for the first time.*

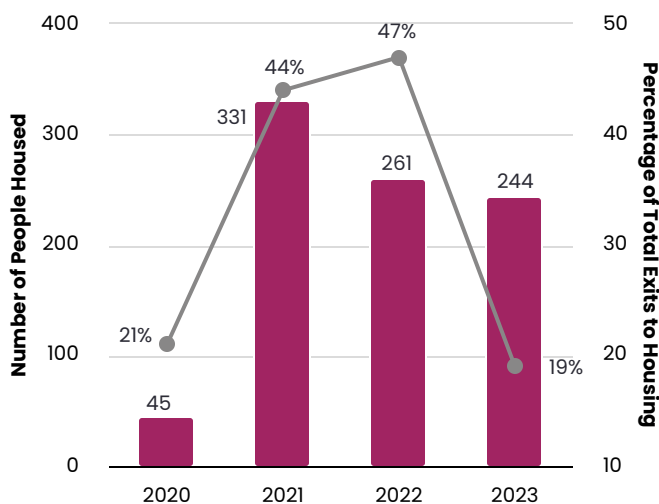

In 2023, the number of people experiencing first time homelessness in Nashville increased by 356.

## Measure 7: Successful Placement in Permanent Housing

This measures the number of people that exited different program types into permanent housing and the percentage of total exits from homelessness that were to permanent housing destinations. *Our goal is to increase the percentage of people exiting to permanent housing destinations.*

In 2023, 17 fewer people in street outreach programs exited to permanent housing. In emergency shelter, transitional housing, and rapid re-housing, 202 more people exited to permanent housing. At the same time, the percentage of street outreach participants who exited to permanent housing decreased by 28% and the percentage of participants in the other programs who exited to permanent housing decreased by 5%.

## Exits from street outreach into permanent housing

## Exits from emergency shelters, transitional housing, and rapid re-housing into permanent housing
