

Expenditures Overview

Expenditures

The budget ordinance defines the operating budgets of the two general funds by department. It defines the operating budgets of the other budgetary and non-budgetary funds at the fund level, with a few funds (such as debt service) defined at more detailed levels. It defines the administrative accounts at the business unit level.

There are many factors and stakeholders that are consulted when preparing Nashville's expense budget. It is the responsibility of the Office of Management & Budget (OMB) to work with all stakeholders to balance various, and often competing priorities to present the best budget that delivers high quality services to residents of Davidson County.

Investments

The budget began with FY 2024 baseline budget with additional investments recommended for approval through the budget process. The FY 2025 budget is essentially status quo from previous years with minimal new initiatives. Increased spending was primarily restricted to contractual increases that could not be accommodated within existing appropriations. Investments are highlighted in the Executive Summary and within the individual Departmental Pages.

The Details

- Pay Plan Improvements- The budget funds a Cost-of-Living Adjustment (COLA), Open Range and Increment raises as well as a \$20/hour minimum for full time employees, these improvements will be allocated to the impacted departments upon final budget approval. These improvements have been approved by the Civil Service Commission.

Expenditures Overview

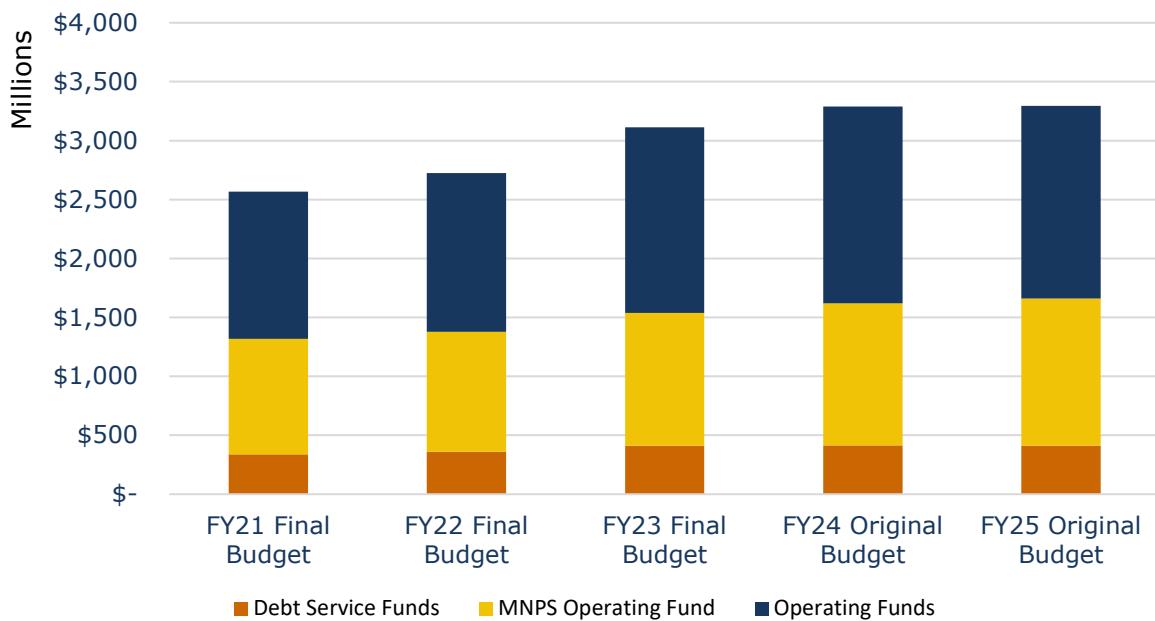

- Fringe benefits – Costs for active employees in the open benefit plans (i.e., FICA, medical, dental, life, and Metro pension) are carried in departmental budgets. Departmental fringe benefits will change during the year due to medical plan increases during the fiscal year and be distributed to departments' budgets based on need but are held in administrative accounts at the beginning of the fiscal year.
- Administrative improvements for internal services funds were recommended in central administrative accounts of the two general funds, these funds will be allocated & distributed to departments' budgets based on need.
- Pay plan improvements implemented & other adjustments that occurred in FY 2024 were carried forward to FY 2025 during this fiscal year.
- Savings Targets – A savings target of approximately 1.41% is included for the tax supported operating funds. These targets will be allocated to impacted departments, including subsidized and internal service organizations as applicable, upon final budget approval. It is not expected that significant operational changes will be required to meet the targets.
- Special Purpose Fund Adjustments – Adjustments for grant and other special purpose funds to meet expected revenue projections and reflect use of fund balance in FY 2025.

Expenditure Trends

Often three primary categories are used for consolidation of the tax supported operating budget into easier to understand components: Debt Service (GSD Debt Service Fund, USD Debt Service Fund, and MNPS Debt Service Fund), MNPS Operating Fund, Operating Funds (GSD Operating Fund and USD Operating Fund).

As the chart below demonstrates, effort is made to maintain a consistent budgeting ratio among these three categories- all with an upward trend to meet increasing costs.

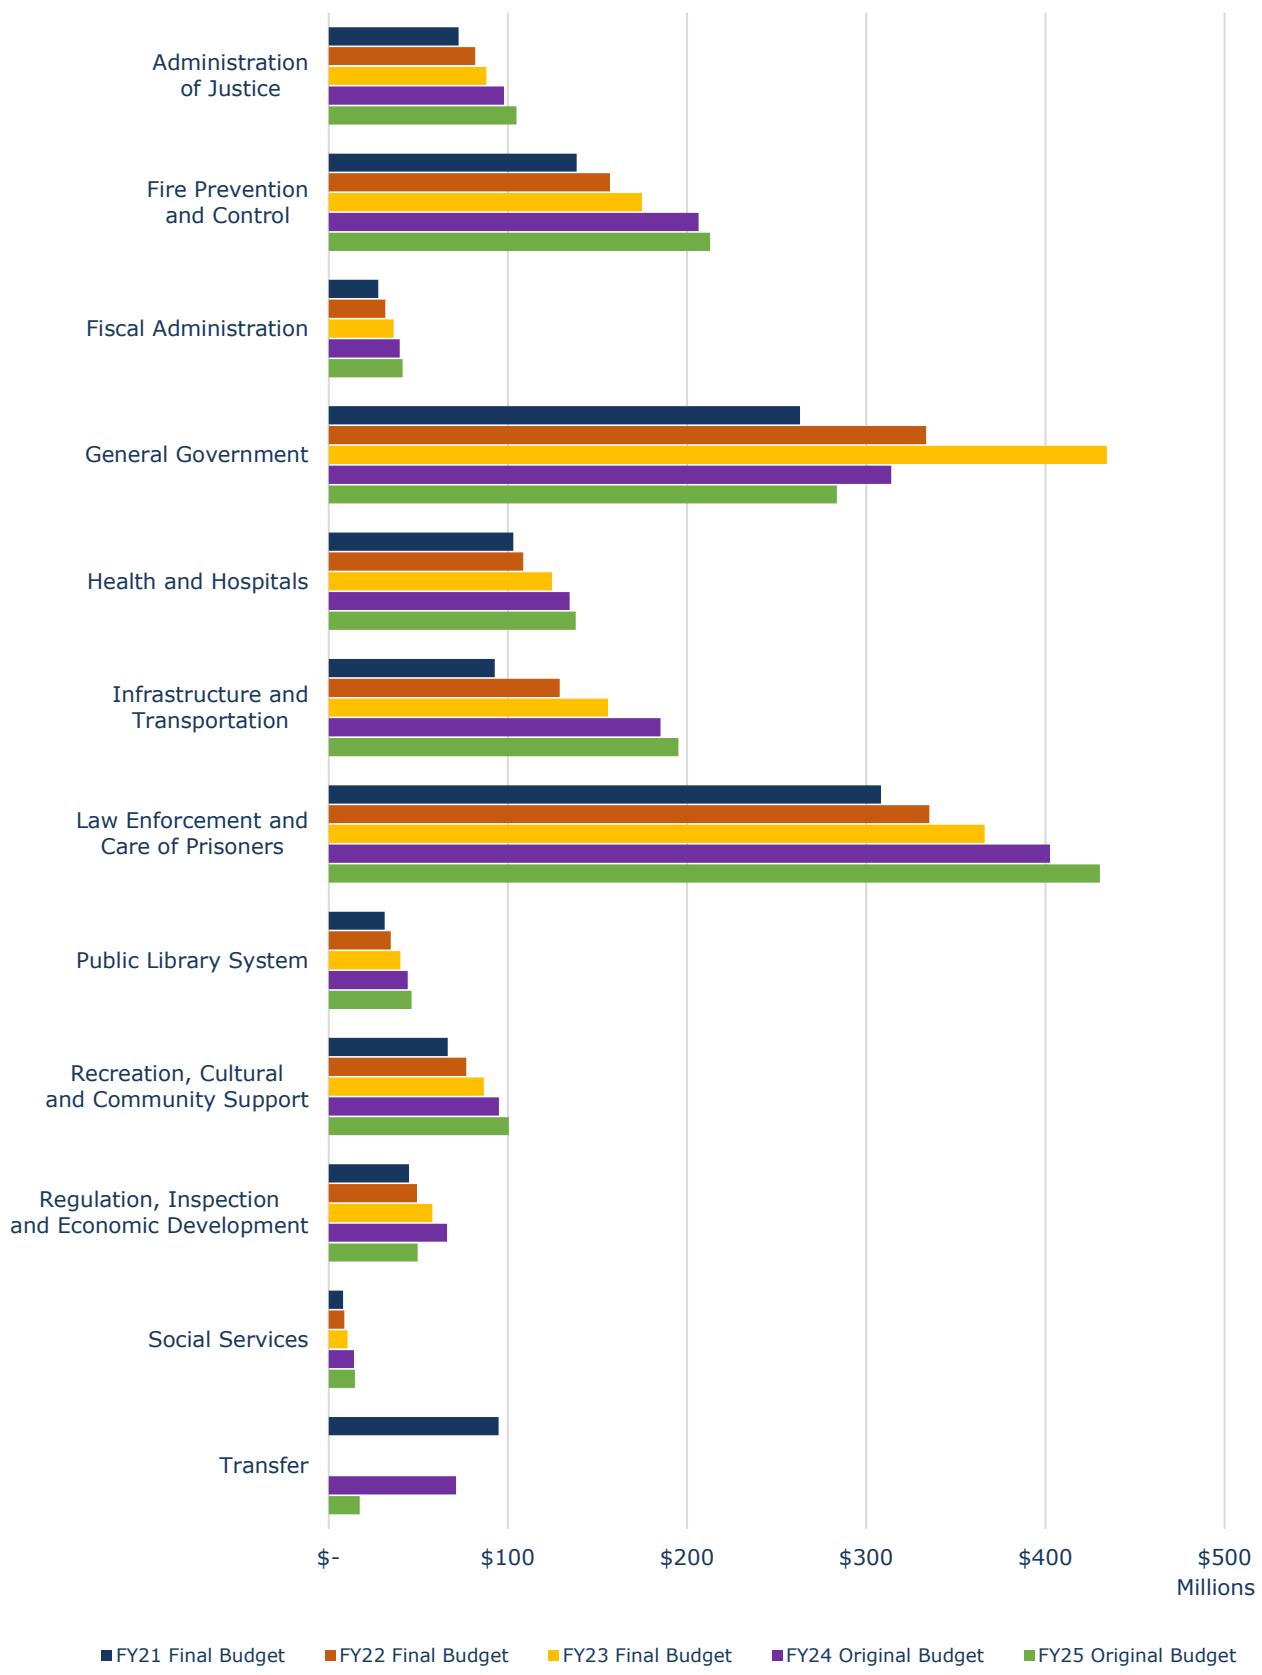

Summarized Tax Supported Expense Budgets

The chart below, "Operating Funds by Function" demonstrates the growth by budgetary function for the operating funds since FY 2021. Metro has rebounded strongly from the pandemic shortfalls. The budget process focuses on ensuring that residents can see high quality services from their government as a result of these expenditures.

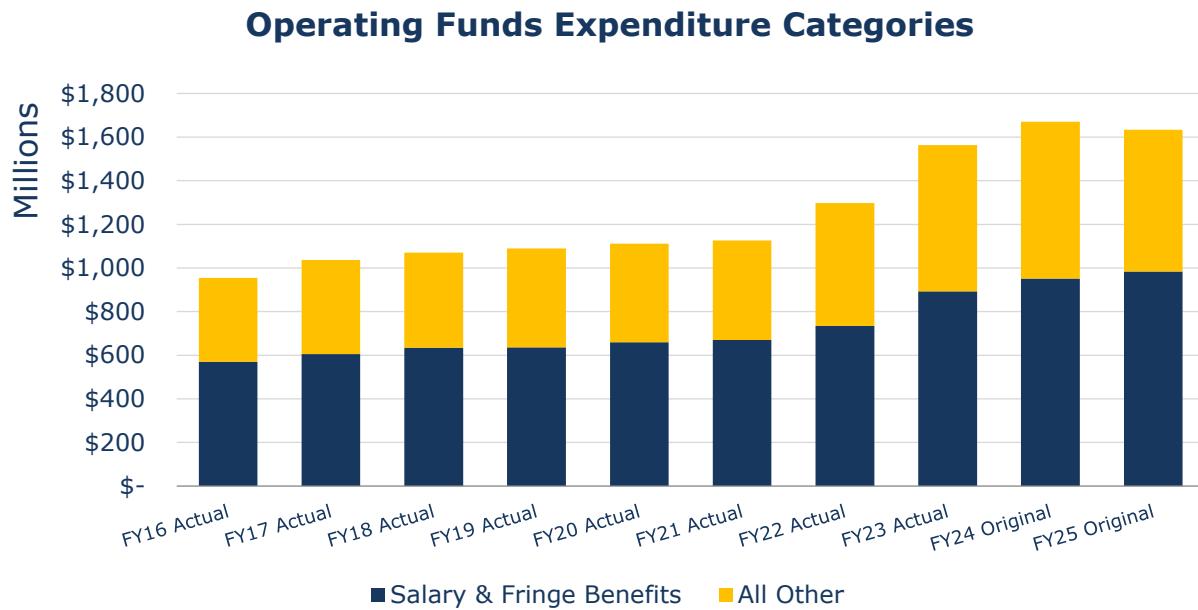

Expenditures Overview

As the chart below demonstrates, salary and fringe costs are the primary driver of the expenditures in the operating budgets. In addition to staff expansion, the Civil Service Commission dictates annual updates to the pay plans that drive the salary budgets.

**The charts above do not account for duplicated transfers*

Expenditure amounts are presented in following three financial schedules as well as the budget ordinance, which is included in Appendix 1; more detail is presented in each department's "Financial" pages.

Expenditure Conclusion: The overall operating budget looks forward to a successful FY 2025 that maintains a stable fiscal foundation and meetings required expenditures, while enabling improved departmental operations and quality of life for Nashvillians.

Expenditures Overview: Financial Schedules

The following financial schedules present financial information in different ways to facilitate comparison between departments and over time. It includes three schedules. Any schedule's footnote references are described below.

SCHEDULE 1 - SUMMARY OF REVENUES AND EXPENDITURES

This schedule summarizes the revenues and expenditures of each of the six budgetary (primary tax-supported) funds, from actual FY 2021 data through the FY 2025 budget. It also shows how revenues and expenditures contribute to fund balances in each fund.

SCHEDULE 2 - DEPARTMENTAL BUDGET BY FUND TYPE

This schedule presents each department's combined FY 2025 expenditure budgets by fund type. This table allows you to view all expenditures for a department regardless of the fund type in which those expenditures are budgeted.

Note, however, that even though this table combines the budgets of various funds that a department uses, the budget of one fund usually cannot be commingled with or substituted for the budget of another fund, even within the same department.

SCHEDULE 3 - HISTORICAL EXPENDITURES

This schedule shows trends in expenditures and full-time equivalent positions (FTEs) for each department and fund, from FY 2022 through FY2025.

* Gross total dollar amounts include duplications due to interfund transfers.

** MNPS position counts presented here reflect amounts for all MNPS funds and are pending Board of Education approval.

Internal Service Funds

Internal Service Funds are used by Metro Government to identify and account for costs incurred by one department in order to provide goods and services to other departments and agencies. For FY25, the Internal Service Funds that recover their budget through billings to departments will be Information Technology Services, which includes radio billings and General Services which includes Fleet Management and Surplus Property. The services provided by these funds will be funded by the General Fund. Below is a brief description of the services provided by each fund:

- Information Technology Service (ITS) – Infrastructure and support functions related to applications, voice and data connectivity and security, mail and access management, file storage, servers, technical help desk, data center operations, some radio communication services, and personal computing devices.
- Fleet Management (Fleet) – Fleet management, fuel services, and maintenance.
- Surplus Property – Handling and disposition of surplus property.

Below are two schedules that show the details of the FY25 billings and the FY25-FY24 budget change broken down by Internal Service Fund. Once the Budget Ordinance is adopted, the FY25-FY24 change for each internal service fee will be allocated to departmental budgets.

Internal Service Allocation Methods

To help explain how the remaining internal service charges are calculated the following schedules outline how the costs are allocated for each of the internal service funds. Included are the list of activities in each department; the basis on which the costs of each activity are allocated; the total number of allocation units; the total cost to departments; the resulting cost per unit, where applicable; and a brief narrative example of how the allocation works. All schedules are based on the FY25 Budget.

| Allocation Method by Activity | | | | | |
|--|--|-------------------------------|---------------------------------------|------------------------------------|--|
